Education

Bachelor of Engineering in Computer Engineering, University of Mumbai 2018 - 2022
Fr. Conceicao Rodrigues College of Engineering – Mumbai, India
CGPA: **9.74 / 10**

Higher Secondary Certificate (Science), Maharashtra State Board 2016 - 2018
Thomas Baptista Junior College – Vasai, India
Score: **94.92%**

Secondary School Certificate, CBSE 2016
Notre Dame High School – Vasai, India
CGPA: **10.0 / 10**

Work Experience

AI & Software Engineer July 2022 – Present

UBS – Navi Mumbai, Maharashtra, India

- Built a real-time audio-based RAG assistant for the CEO, CFO, and Investor Relations team to generate context-aware, low-latency talking points during quarterly earnings calls using Azure Speech, Azure OpenAI, FAISS, and FastAPI.
- Deployed an autonomous agent for financial signoff summarization as part of the UBS ampliFi initiative, leveraging LangGraph, FastAPI, and Azure OpenAI to streamline and assist controllers.
- Won UBS India Hackathon 2024 by developing a multi-agent RAG-based AI assistant using LangChain, LangGraph, Azure OpenAI, and Azure AI Search to provide application-specific user assistance and automated incident reporting, showcasing innovation in enterprise AI.
- Delivered a working PoC for AI-powered financial commentary automation using FastAPI, LangGraph, and Azure OpenAI, collaborating with users to enhance decision-making workflows and save up to 1.5 hours daily per user.
- Designed and optimized an ETL pipeline in Databricks to ingest millions of records for daily balance sheet reporting, using a concurrent queue mechanism to process data from over 13 regions across 100+ daily jobs.
- Boosted the performance of critical Databricks jobs from 45 minutes to under 8 minutes, significantly enhancing data availability, reducing costs, and improving operational efficiency.
- Earned recognition as a UBS Certified Gold Engineer for demonstrating technical excellence and consistent delivery.
- Served as a core member of the UBS AI Ventures Challenge for graduates, mentoring participants on AI and innovation to solve a problem statement based on a real financial dataset.

Web Intern

December 2019 – December 2020

Kindness Unlimited – Mumbai, Maharashtra, India

- Managed and updated website content, redesigned layouts for various events, optimized site performance using plugins and caching, and collaborated with the team to ensure timely updates and resolve technical issues.

Deep Learning Intern

June 2020 - July 2020

Bennet University – Greater Noida, Uttar Pradesh, India

- Developed and trained an end-to-end deep learning model based on activity recognition to detect suspicious behavior in surveillance footage.

Research & Publications

Dias, M., H. Aloj, N. Ninan, D. Koshti, S. Kamoji.

First Aid and Emergency Assistance Robot for Individuals at Home using IoT and Deep Learning.

IEEE 7th International Conference on Computing Methodologies and Communication (ICCMC), 2023.

DOI: <https://doi.org/10.1109/ICCMC56507.2023.10083934>

Dias, M., H. Aloj, N. Ninan, D. Koshti.

BERT-based Multiple Parallel Co-attention Model for Visual Question Answering.

IEEE 6th International Conference on Intelligent Computing and Control Systems (ICICCS), 2022.

DOI: <https://doi.org/10.1109/ICICCS53718.2022.9788253>

Technical Skills

Programming: Python, Java

AI / ML: Generative AI, NLP, Agentic AI, Forecasting, Anomaly Detection

Frameworks: LangChain, LangGraph, FastAPI, Spring Framework

Data & Cloud: Databricks, Apache Spark, Microsoft Azure, PostgreSQL

Tools: Kubernetes, Power BI, GitLab CI/CD

Awards

Outstanding Performer Achievement – UBS, 2023

Top 6 at AI for Healthcare Hackathon – DERBI Foundation, 2021

Project Theme: Deep Learning Multiple Diseases Prediction Model based on Retina Image

Certifications

Azure AI Engineer Associate — Microsoft, 2026

Azure AI Fundamentals — Microsoft, 2024

Power BI Data Analyst Associate — Microsoft, 2024

Microsoft Azure Fundamentals — Microsoft, 2023

Deep Learning Specialization — DeepLearning.AI (Coursera), 2020
